

## HISPEED ROLL-UP SCREEN 8000

### TECHNICAL DATA SHEET

September 2017

Ultra-fast - up to 1.8 m/sec - motorised roll-up system.

When only the fastest portable curtain control roll-up system in the world will do.

- The screen is fixed to a 3 m / 6 m / 9 m wide cylinder and is mounted in a standard 40/40 truss.
- When trusses are joined together (with a mere 3 cm overlap), the built-in axes are connected and align perfectly, so one motor can drive several rollers at a time.
- Variable width by connecting several standard axes of 3 m, 6 m or 9 m.
- Screen height: up to 15 m.
- This system, with its unique positioning control, is DMX compatible, easy to assemble and easy to tour.
