

KABUKI 30

TECHNICAL DATA SHEET

June 2021

Thanks to the friction technology, you can slide in your unfinished fabric or [Sashline](#) and trigger the release with a single push of a button. Its compact size allows you to mount the system wherever you want: in corners, upside down, on the floor or anywhere on stage. Especially when coupled with [HiSpeed Reveal](#) or used as a traditional Kabuki system, the options of the solo Kabuki module are endless.

» SPECIFICATIONS

- Maximum working load: 20 kg
- Permanent holding - Manual release possible
- Holds fabric and 6 mm Sashline
- Direct power input
- Daisy chainable
- Maximum duty cycle: 30 s
- Fabrics only

» OUTER DIMENSIONS (MM)

» ELECTRONICAL AND MECHANICAL PROPERTIES
