

ACOUSTIC DIVIDER

TECHNICAL DATA SHEET

August 2017

This free-standing and mobile cart is an extension of the Acoustic Panel. It consists of 3 Acoustic Panels mounted in a set of T-frames fitted with wheels. The modular cart is ideal for use in recording studios, rehearsal spaces and open plan offices. Just roll them in or out of your venue to reduce reverberation times or seclude noise sources when needed. In black or grey.
