

TRAVELSCREEN

TECHNICAL DATA SHEET

March 2024

Portable projection screen with front and rear projection foil. TravelScreen is the ideal mobile screen for temporary installations and professional presentations or performances on the go.

SCREEN

- Standard sizes for 16:10 viewing area.
- Available with front and rear projection foils with black borders.
- The screen is fixed by multiple press studs on each side, ensuring a wrinkle-free screen.
- Fire retardant screen material: NF P 92-507 / M2 certified

FRAME AND SUPPORTS

- Solid aluminium frame on two stands with a maximum width of 6m.
- Made to withstand the toughest of challenges.
- Fold-and-lock mechanism for easy setup and takedown, ensuring the frame is firm and secure when in use.
- For extra strength, screens wider than 5m have more robust frames as well as heavy-duty hinges and corners.
- The hinge locking mechanism ensures a fast and easy assembly with no parts to install and no tools needed.
- Without the stands, the frame can be hung as well.

FLIGHTCASE

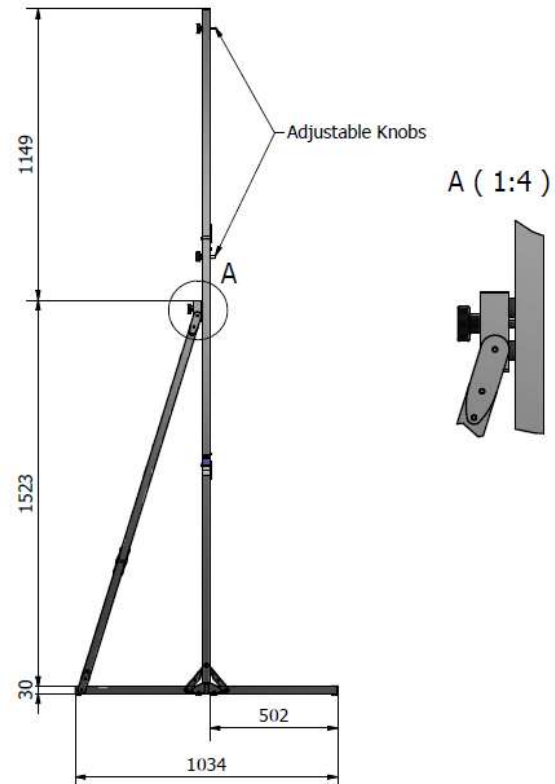

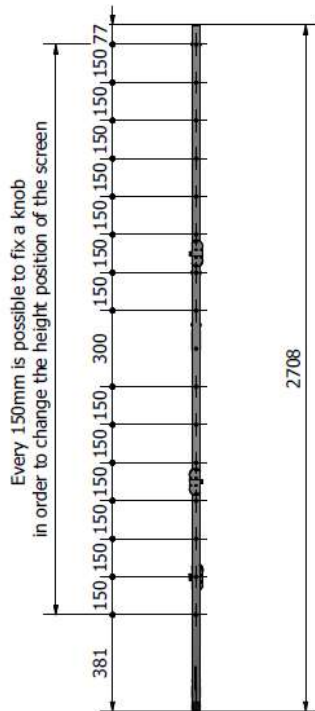

- The aluminium frame is sturdy yet very light to transport. All pieces fit into a light but robust flightcase on wheels.

Standard viewing area 16:10	Diameter	Profile	T-Stands
200 cm wide x 125 cm high	93"	32 mm x 32 mm (light duty)	T-stands
250 cm wide x 156 cm high	116"	32 mm x 32 mm (light duty)	T-stands
300 cm wide x 188 cm high	139"	32 mm x 32 mm (light duty)	T-stands with reinforcement bar
350 cm wide x 219 cm high	162"	32 mm x 32 mm (light duty)	T-stands with reinforcement bar
400 cm wide x 250 cm high	185"	32 mm x 32 mm (light duty)	T-stands with reinforcement bar
500 cm wide x 313 cm high	232"	64 mm x 32 mm (heavy duty)	T-stands with reinforcement bar
600 cm wide x 375 cm high	279"	64 mm x 32 mm (heavy duty)	T-stands with reinforcement bar
